

Adeon Software House Appoints Router Solutions GmbH as New Distributor in Germany

OOSTERHOUT, NL – 14 June 2010 - Adeon Software House (ASH), specialists in software systems for global electronics companies, has announced the appointment of Router Solutions GmbH, in Germany as its exclusive distributor. The partnership extends ASH's European reach and allows the electronics industry in Germany, Austria and Switzerland to benefit from its new CXInsight e_collaboration and data management software, enjoy improved accessibility and fast response times through Router Solutions established sales and support network.

“We specialize in software for PCB manufacturing processes, with emphasis on the EMS sector. Now in our 17th year, we value longstanding partnerships with leading brands,” said Kevin Decker-Weiss, co-director at Router Solutions GmbH. “CXInsight will help our customers tackle the collaboration and data optimization challenges, increase design and manufacturing efficiency, productivity and quality.”

“Specifically tailored to the electronics industry, CXInsight will enable designers and manufacturers to communicate across the web and work concurrently on managing change to project content – safely, easily and in a totally secure environment. Our EMS sites, in particular, stand to benefit greatly by streamlining the data exchange with their customers.”

Commenting on the new relationship, Jan Keijzer, managing director at ASH said, “Router Solutions is an ideal partner for our CXInsight software. They are leaders in their field with a proven track record in PCB production. The expertise of their technical staff is second to none, ensuring customers receive the highest quality support when required.”
